Medically “What the Doctor Knows For Sure” Vincent P. Basilice, M.D. – Medical Director

How do I know if I am a candidate for Laser Vision Correction? In general, the ideal patient is age 18 or over, has healthy corneas, and an eyeglass prescription that has not had a significant increase in the last year. There is no maximum age but if you have progressive cataracts, refractive cataract surgery may be a better option to eliminate glasses. People with certain medical conditions and women during their pregnancy are not candidates. Our Visx Advanced CustomVue laser has been approved to treat nearsightedness, farsightedness, astigmatism, and mixed astigmatism, so the majority of people who wear glasses for distance are candidates. LASEK is a bladeless procedure and utilizes *start-of-the-art computer technology* combined with the accuracy and precision of the excimer laser to treat a wide range of nearsightedness, farsightedness and astigmatism. Often patients whom are not candidates for the cutting surgery, LASIK are able to undergo LASEK due to preserving the natural tissue of the eye. Advanced CustomVue LASEK can correct the imperfections of each individual’s vision and provide them with the experience of even better vision than is possible with glasses or contact lenses – LASEK can give you your very own individualized unique vision, fitted to you and you only!

What Dr. Basilice’s Wife, Dahna knows for sure:

“Even though we don’t forget things. We can forgive those things.
Forgiveness won’t change the past, but it very well can change the future.”

“The past holds so much regrets, the future holds so much promise”

Ask the Doctor: Alex Schaffer, OD

My eyes feel dry, how can I relieve some of the symptoms?

A natural route for those who suffer with dry eyes! Symptoms of dry eye can include; a scratchy, gritty, burning feeling in your eyes, excessive tearing; itching, redness, increased sensitivity to dry air, wind, contact lens wear and extended computer use. HydroEye capsules are available for purchase in the office and provide continuous relief from dry eye discomfort whether due to age, contact lens wear, computer use, LASIK or other causes. HydroEye is a unique oral formulation containing a blend of omega-3 and omega-6 fatty acids, antioxidants and other nutrients that work together to support a healthy tear film. HydroEye works from the inside out by delivering this blend to support proper healthy tear secretion and a healthy tear film. HydroEye provides uninterrupted relief from dry eye discomfort with consistent use. Results are typically experienced within 30-60 days, although many experience relief sooner. Consistent use may allow you to stop any drops you are currently taking for your dry eye, your doctor will advise you when you do this. The makers of HydroEye, Science Based Health, offer a 60-day money-back guarantee, if you do not see and feel improvement!

Electronic Prescriptions We send your medication prescriptions electronically! This saves you time at the drugstore and better protects your privacy. Please have your drugstore information (name, address with zip code and phone number) available when you come in to the office or call for a renewal. You may also tell your drugstore to contact us electronically for renewals. Thank you!
