

August

DID YOU KNOW?

There's a Solar eclipse this month! As the moon comes between the sun and the earth you might think it's safe to look up at the dark sphere- **WRONG!** Radiation from the sun can still burn your retina and can even cause blindness! **NOW YOU KNOW.**

Meet the Staff!

Hi, I'm Marisa! I've worked at TOC Eye for about a year and a half. I do a little bit of everything at the office; I have worked in reception, now I'm one of the testers, and I'm also in training to be a technician! One of my favorite things to do at work is to help the surgical team. When I'm not working I enjoy going to the beach and studying for the MCAT's. I'm currently going to school for Biology and I hope one day to be a doctor myself!

Let's Talk About Lasek

With Dr. Basilice

Our surgeons specialize in the non-cutting state-of-the-art Advanced CustomVue LASEK and now perform it exclusively. Here are some reasons why LASEK is the better choice than traditional LASIK for our patients.

LASEK can safely treat patients with thin corneas and high prescriptions who in the past were not candidates for LASIK. When no flap is made, there is much more corneal tissue available to treat with the laser and more corneal tissue is left untouched. Even for patients with average corneal thickness **LASEK is always the better option than LASIK for the future health of the corneas, because you are preserving much more corneal tissue.**

LASEK is safer and easier for the patient! With LASEK there is no chance of a flap complication because there is no flap! LASEK is not only safer for our patients, but also an easier procedure to go through- because there is no machinery on the eye, no loss of vision during the procedure and no chance of either a patient induced flap complication (caused by squeezing or moving) or a post-operative flap complication (caused by rubbing or squeezing). Patients are more relaxed during the procedure, knowing that they are in no danger of affecting the outcome and they don't have to worry after the procedure either!

Summer Special
\$800 OFF LASEK
Not to be combined with any other offers

Schedule your FREE
Lasek Consultation!

What Dr. Basilice's Wife, Dahna knows for sure:

"Don't forget that you're human. It's okay to have a meltdown. Just don't unpack and live there. Cry it out and then refocus on where you are headed."
