Medically “What the Doctor Knows For Sure” Vincent P. Basilice, M.D. – Medical Director

A natural route for those who suffer with dry eyes! Symptoms of dry eye can include; a scratchy, gritty, burning feeling in your eyes; excessive tearing; itching; redness; increased sensitivity to dry air, wind, contact lens wear and extended computer use. HydroEye capsules are now available for purchase in the office and provide continuous relief from dry eye discomfort whether due to age, contact lens wear, computer use, LASIK or other causes. HydroEye is a unique oral formulation containing a blend of omega-3 and omega-6 fatty acids, antioxidants and other nutrients that work together to support a healthy tear film. HydroEye works from the inside out by delivering this blend to support proper tear secretion and a healthy tear film. HydroEye provides uninterrupted relief from dry eye discomfort with consistent use. Results are typically experienced within 30-60 days, although many experience relief sooner. Consistent use may also allow you to stop any drops you are currently taking for your dry eyes, your doctor will advise you when to do this. The makers of HydroEye, Science Based Health, offer a 60 day money-back guarantee if you do not see and feel improvement!

What Dr. Basilice’s Wife, Dahna knows for sure:

If the universe wants you to know something it will find a way to tell you. It will not stop until you know. However long it takes, do not ignore the signs. It is ultimately your instinct speaking to you.

Ask the Doctor: Alex Llinas, MD, PhD

WHAT CAUSES DRY EYES? Dry eye remains a major cause of visual discomfort for many patients. This condition which affects women more than men is often the result of increasing age, environmental changes, contact lens wear and systemic medication. Patients often complain of fluctuating vision, burning, foreign body sensation, and eye discomfort. Many treatments exist for the treatment of dry eye including the use of artificial tears, nutritional supplements such as HydroEye, Restasis, and punctual plugs. If you, a family member, or friend, suffer from dry eye, red in the eye, or keratoconjunctivitis sicca, contact your eye doctor at The Ophthalmic Center located in East Setauket, Long Island, to arrange an evaluation.

HydroEye® is a supplement that works from the inside-out by delivering a blend of omega-3 and omega-6 fatty acids, antioxidants and other nutrients that support proper tear function. We have seen great results from this product.

Electronic Prescriptions We send your medication prescriptions electronically! This saves you time at the drugstore and better protects your privacy. Please have your drugstore information (name, address with zip code and phone number) available when you come in to the office or call for a renewal. You may also tell your drugstore to contact us electronically for renewals. Thank you!
