

Vincent P. Basilice, M.D., P.C.
Medical Director

Vincent P. Basilice, M.D., P.C – *Medical Director*
Michael S. Connors, M.D., Ph.D.
Alexander J. Llinas, M.D., Ph.D.
Alex J. Schaffer, O.D.

Ask the doctor: Alexander Llinas, M.D., Ph.D.

Happy Birthday to
those celebrating in
June – Along with
our staff members:
Bella, Maria, and
Bryan!!

“What is Blepharitis?”

Blepharitis is a common eyelid inflammation that sometimes is associated with a bacterial eye infection, symptoms of dry eyes, or certain types of skin conditions such as Rosacea. *An easy and effective treatment is recommended by our doctors here at TOC EYE, Hypochlor daily lid and lash hygiene cleanser. Using Hypochlor every night before bed will result in the itchy sensation or inflamed and red look to your eye lids to decrease dramatically!*

What Dr. Basilice's Wife, Dahna, Knows For Sure:

"If you cannot speak intelligently and respectfully with grace to others then you are the reason for chaos and disorder in this world." DMB

DID YOU KNOW?

Up to 40 million people experience dry eye symptoms. It is the top reason people visit eye care professionals! Causes of dry eye could be linked to computer usage, contact lens wear, heaters, illness, or medications. If you are experiencing burning, itchy, or watery eyes – treatments are available. Ask your eye doctor today!
